## REPORT OF THE SUPERINTENDENT OF FORESTS

---

ALBANY, N. Y., *January 1, 1914.*

*Conservation Commission, Albany, N. Y.:*

GENTLEMEN.— I submit herewith a list of lands constituting the Forest Preserve. This information forms the basis for the the entire landed business of this Bureau. The data contained herein is in many ways most important, and the publication from an administrative standpoint more valuable than any other issued by this Division. In this list will be found full information as to what lands the State owns in the Forest Preserve, the acreage of each lot and its location. The source of title is also indicated — whether acquired at tax sales, by purchase, or otherwise. The years of the tax sales at which the State acquired a parcel of land are stated. This publication is essential for every one of our forest rangers, and is required for general use in this Division, and there is a demand for this information from a large number of people generally.

Section 50, chapter 444 of the Laws of 1912, defines the Forest Preserve as follows:

“Section 50. Forest Preserve. The Forest preserve shall include the lands owned or hereafter acquired by the state within the county of Clinton, except the towns of Altona and Dannemora, and the counties of Delaware, Essex, Franklin, Fulton, Hamilton, Herkimer, Lewis, Oneida, Saratoga, St. Lawrence, Warren, Washington, Greene, Ulster, and Sullivan, except

1. Lands within the limits of any village or city, and
2. Lands not wild lands acquired by the state on foreclosure of mortgages made to loan commissioners.”

This section provides that all the lands owned by the State within the above named counties, except within the limits of incorporated villages and cities, and certain mortgage title lands, constitute a part of the Forest Preserve. Lands acquired by the foreclosure of United States Deposit Fund mortgages, if not wild, are not part of the Forest Preserve. The Attorney-General has advised that the classification as to whether or not lands are wild should apply as of the time of the foreclosure of the mortgage. Since the last publication of this kind was issued in 1909 an examination of these mortgage lands has been made and those which do not come within the definition have been separated and are included in an appendix to this report. The Attorney-General has also rendered opinions to the effect that lands acquired by the State within these counties for specific purposes and so used did not become a part of the Forest Preserve and, therefore, they are listed separately. Lands within ten miles of Clinton Prison, although within a Forest Preserve county, are not included as a portion of the Forest Preserve.

A list of the various parcels in the St. Lawrence Reservation, or International Park, and other lands owned by the State in the Forest Preserve counties, not classified as Forest Preserve land, are appended for convenient reference but not included in the schedule of the Preserve.

The area of the Preserve by counties, together with information in regard to the number of parcels, sources of titles, etc., are included herewith.

The Forest Preserve, as already indicated, consists of all the lands owned by the State, with above exceptions, within the twelve Adirondack and four Catskill counties, while the central portions of each of these mountainous sections are distinguished as the Adirondack and Catskill Parks respectively. The boundaries of these parks are fixed by statute and indicated upon our forest maps by a heavy blue line. The original purpose of establishing the park was to prescribe a certain area within which the State would purchase land for Forest Preserve purposes. The definition "Adirondack and Catskill Parks" until 1912 applied to the lands owned by the State within the blue line but since that time has been changed to mean all lands both State and private within that area.

The first appropriation for buying land for the Forest Preserve was made in the year 1890. Purchases were to be made by the Forest Commission with the approval of the Commissioners of the Land Office, and the price that might be paid was limited to one dollar and fifty cents per acre.

The first purchase was December 8, 1891. In 1895 the Fisheries, Game and Forest Commission was created taking over the work of the former Forest Commission and under an appropriation made that year the limit in price that might be paid was removed. Purchases by the two commissions amounted to 140,305 acres.

In 1897 a special board, known as the Forest Preserve Board, for the purchase of land for the preserve was created. They

were authorized to make purchases without the approval of the Commissioners of the Land Office.

Appropriations for the extension of the Forest Preserve have been made as follows:

1890.....	\$25,000
1895.....	600,000
1897.....	1,000,000
1898.....	500,000

#### ADIRONDACK PARK.

The area of the Adirondack Park, of which the State owns only a portion, is 3,313,564 acres. Within this area the State owns 1,389,081.89 acres of land and 23,620.32 acres of water. The remaining area in the Adirondack forest is outside of the Park. The figures as to the area of these lands are based upon old surveys and, in many cases, are less than the actual acreage.

#### CATSKILL PARK.

The Catskill Park, as defined by law, contains 576,120 acres and includes a portion of the following named counties: Delaware, Greene, Ulster and Sullivan. Within the park area the State owns 101,436.65 acres. There are without this section in the Catskill Forest Preserve counties 10,749.00 acres.

This list is compiled on the basis of the best available information at hand and is published as a matter of information and convenience. The omission of any lands does not necessarily mean that the State does not claim title to such premises. In case detailed information, in regard to the title to any specific premises, is required the original records should be consulted.
